

Health Professional Membership application form

Australian
Diabetes
Council

Health Professionals are at the forefront of the fight against the rise of diabetes.

We're here to assist you every day as you provide practical support to all people living with and at risk of diabetes.

Health Professionals are at the forefront of providing every day support to all people, living with and at risk of diabetes.

Because we share a common commitment, Australian Diabetes Council has developed the **Health Professional Membership**, providing practical support for health professionals to assist them in the management of people with diabetes and those at high risk.

Health Professional Membership means you are aware of and are able to take advantage of the full range of programs and activities such as diabetes management initiatives, seminars, kids camps, awareness campaigns, education programs and services for 'at-risk' or vulnerable communities.

Australian Diabetes Council will continue to play a pivotal role for all members in the management and prevention of diabetes

in Australia – both at home and in the workplace – by challenging, listening, educating, advising and funding research.

Become a Health Professional Member today and encourage your patients to become an Everyday Plus Member.
